

Messay Mohammed

FULL STACK DEVELOPER

Addis Ababa, Ethiopia · Open to remote | hello@messay.dev | github.com/moisoi

PROFILE

Full stack developer with 3+ years of experience designing, building, and shipping web products end-to-end. Comfortable owning features from database schema to pixel-perfect UI, with a focus on performance, accessibility, and maintainable code. Quick to learn, obsessive about quality, and happiest when shipping software that real people use.

EXPERIENCE

Full Stack Developer 2024 — Present

Freelance & Contract

- Ship end-to-end web products for startups and local businesses — schema design to deployment.
- Delivered marketplace, POS, and analytics platforms used by real customers daily.
- Advise clients on architecture, performance budgets, and accessibility.

Frontend Developer 2023 — 2024

Product Studio, Addis Ababa

- Built and maintained React applications serving thousands of monthly users.
- Introduced a component system that cut UI development time by ~40%.
- Paired with designers to ship pixel-perfect, responsive interfaces.

Web Development Intern 2022 — 2023

Tech Startup, Remote

- Learned production workflows: code review, Git flow, CI/CD, agile sprints.
- Shipped first production features and owned bug fixes end-to-end.

SELECTED PROJECTS

Gebeya Marketplace React · Node.js · PostgreSQL

Two-sided marketplace for Ethiopian artisans with escrow payments and sub-second page loads.

BunaPOS PWA · IndexedDB · React

Offline-first café point-of-sale with background sync — full functionality with zero connectivity.

Selam Chat WebSockets · Redis · MongoDB

Real-time messaging with rooms & presence, load-tested to 2k concurrent connections per node.

SnapCV API Python · FastAPI · OCR

Resume-parsing API turning messy PDFs into structured JSON with 92% field accuracy.

SKILLS

Frontend JavaScript / TypeScript, React, Next.js, HTML/CSS, Tailwind

Backend Node.js, Express, Python, FastAPI, PostgreSQL, MongoDB

Tools Git, Docker, Linux, CI/CD, Vercel, Figma

EDUCATION

BSc, Computer Science 2019 — 2023

Addis Ababa University

- Led the student dev club; organized hackathons.
- Focus: software engineering, databases, algorithms.
